Declass Review by NIMA / DoD

DISPLAY DEVICES FOR AUDITORIUM PROJECTION

STATINTL

STATINTL

[REDACTED] makes a display device consisting of an opaque glass on the front of a projector. An automatically controlled scribe will scribe through the opaque material and this appears on the screen as a track developing in a controlled manner.

STATINTL

They were affiliated with [REDACTED] Los Angeles phone [REDACTED]

STATINTL

STATINTL

Attempts to reach either [REDACTED] by phone failed, so I visited the plant which is near [REDACTED] STATINTL

STATINTL

STATINTL

The plant was vacant. [REDACTED] had been bought out by [REDACTED] Electronics and about a year ago they had moved to Texas, the home location of [REDACTED] STATINTL

STATINTL

I have written to [REDACTED] for information on the [REDACTED] display projector. STATINTL
